DTS: Continued

DTS: CONTINUED

one-on-ones

It's hard to believe, but we are already at the half way point of the Lecture Phase of DTS! So far, our lecture topics have been: the Inductive Bible Study Method and Our Story of Redemption, How to Bring the Kingdom of God to a Region, Team Building and Personalities, The Character and Nature of God, The Father Heart of God, and Inner Healing. These lectures are all given with the goal that students gain a better understanding of who God is so that our relationship with Him grows, and so that we can better share Him with others.

Every week, I have one-on-ones with two of the male students. This is a big part of their discipleship process, and my goal in these times is to help them process what they are learning so that the knowledge doesn't just stay in their head, but makes it to their heart and their hands. The DTS is designed to be a transformational school, so that in the end, students have a more godly character and behaviour, not just more knowledge about God.

Team Building Week helped students to understand their role in the body of Christ and how to work well together

For this reason, one-on-ones are some of my favourite times and some of my least favourite. In the past few weeks I have had some difficult conversations with some of the students, which is not comfortable or easy, but in the end we have been able to see real growth in their character and lives! It is really exciting to see the students' character becoming more like Jesus as they learn to lay down their rights, put the interests of others before their own, and love one another. And that isn't only happening in the students' lives... God is also working on my character through the students, teaching me humility, selflessness, and many other good things!
